

2021 Webinar Series

Due to limitations in travel because of COVID-19, the OCMA has scheduled a series of webinars in March and April rather than our typical in-person workshop.

These webinars will be held on Mondays during the lunch hour (starting at noon) and last no more than 45 minutes to be mindful of individuals work responsibilities. The webinars will be hosted on the Google Meet platform, and meeting information will be distributed to registered attendees prior to the workshop. Registration information for each workshop is below.

March 8, 2021

Topic: OSHA and the Biden Administration

Presenter: Frantz Ward

Description: President Biden has already begun issuing executive orders that will affect how metal casters may run their operations, most recently related to COVID compliance. Join this webinar to learn more about how these changes may affect your operations, how to stay compliant, and what the future may hold.

March 15, 2021

Topic: OSHA's On-Site Consultation Program

Presenter: Keith Bullock, Division of Safety and Hygiene, OSHA On-Site Consultation Program

Description: OSHA's On-Site Consultation program is a free and confidential program that offers occupational safety and health consulting services to small- and medium-sized businesses. On-Site Consultation services are separate from enforcement and do not result in penalties or citations.

Join this webinar to learn more about the program and if it can be of use to you.

March 22, 2021

Topic: Safety Leadership Training (Part 1)

Presenter: Preferred Benefits, A HUB International Company

Description: Your culture is a powerful component of your organization, it can affect your ability to attract and retain great employees, and without deliberate preparation can allow risk and serious hazards to exist in your organization, unidentified or underestimated.

The introduction to safety leadership program outlines the 4 cornerstones of an effective safety culture along with the necessary “soft skillsets” and perspectives that supervisors must be equipped with to handle the challenges of balancing employee safety with productions demands in today’s distracted environment.

Please note: This is the first part of a two-hour training happening over two weeks. Please plan to attend this training and Part 2 on April 5th to participate in the full training.
